

SURGICAL SKIN AUDIT

Virtus Diagnostics in conjunction with our partner Histopath would like to offer our referring doctors the opportunity to enrol in our Surgical Skin Audit.

Our Surgical Skin Audit provides General Practitioners with statistical informative reports that will assist the diagnosis, management and treatment of your patients.

RACGP – QI & CPD CATEGORY 1. 40 Points

Our aim in providing this activity is to support our referring General Practitioners by providing information in relation to cancerous and non-cancerous skin lesions and best practice management.

On your Surgical Audit Report you will see:

- Diagnostics Accuracy
- Margin Adequacy
- Peer Comparison

Our Histopathologists are available to advise and discuss your patient's results and surgical audit reports.

How it works?

- Complete the attached registration form and return via fax to (02) 9570 2111
- You will receive Specialised Skin Audit Request forms.
- When collecting the sample additional clinical data is required for the audit.
- Statistical reports are issued at regular intervals throughout the triennium.
- Complete and submit your questionnaire for a minimum of two consecutive intervals during the 2017-2019 RACGP Triennium.

For further information on our Surgical Skin Audit, phone 9570 2211.

Surgical Skin Audit Registration Form

Please Fax (02) 9570 2111 or return via your courier
