

## Diagnostic Testing Costs

### Australian Medicare card holders

Prices are correct from 14 August 2017 and are subject to change without notice

We seek to keep your costs to a minimum. As Tas IVF and Virtus Diagnostics are part of one of the world's leading medical collaborations, we can offer a complete range of general pathology services as well as specialised fertility and genetic testing through our inhouse laboratories.

Listed are the diagnostics tests typically requested by your fertility specialist and available through our clinics and laboratories.

#### External providers

If you attend an external pathology provider there may be additional costs invoiced directly to you by that provider.

#### Estimated costs

A few tests do have to be sent to an external provider because of the highly specialised nature of the test. We have provided an estimate of what you should expect. You will be invoiced directly from the external provider.

There are also some tests where there is either no Medicare rebate (eg AMH testing) or it is not possible to provide the detailed level of testing at a bulk billed rate (eg detailed semen analyses or specialised ultrasounds) and in these cases you will incur a fee.

A Collection fee of \$8.50 per invoice *may* apply depending on tests ordered.

Female pre treatment tests typically requested		
Anti Müllerian Hormone (AMH)	\$80	
Blood group and antibodies	BULK BILLED	
Chlamydia (IgG)		
Chlamydia RNA (swab or urine)		
Full blood count (FBC/FBE)		
Gonorrhoea RNA (swab or urine)		
Hepatitis B		
Hepatitis C		
Hepatitis C PCR		Estimated cost \$92.20
HIV		BULK BILLED
Rubella IgG		
Syphilis (TPPA)		
Thyroid Function Tests (TFT)		
Thyroid Stimulating Hormone (TSH)		
Varicella zoster IgG		
<b>Male pre treatment tests typically requested</b>		
Blood group and antibodies	BULK BILLED	
Chlamydia (IgG)		
Chlamydia RNA (swab or urine)		
Full blood count (FBC/FBE)		
Gonorrhoea RNA (swab or urine)		
Hepatitis B		
Hepatitis C		
HIV		
Syphilis (TPPA)		
<b>Semen Analysis</b>		
- Antisperm antibodies	\$33 (approx \$11 refund)	
- DNA SCSA	\$275	
- Full semen analysis	\$88 (approx \$29 refund)	
- Full semen analysis with antisperm antibodies	\$122 (approx \$41 refund)	
- Trial Wash	\$250 (approx \$76 refund)	

Female hormone tests	
DHEAS	BULK BILLED
Follicle Stimulating Hormone (FSH)	
Inhibin B	Estimated cost \$85
Luteinising Hormone (LH)	BULK BILLED
Oestradiol (E2)	
Pregnancy test (BHCG)	
Progesterone (PROG)	
Prolactin (PROL)	
Sex Hormone Binding Globulin (SHBG)	
Testosterone (TESTO)	
Vitamin D	Bulk billed if clinically eligible. Otherwise \$35
17 Hydroxy Progesterone	Estimated cost \$30.50
Genetic screening	
Array CGH blood including Karyotype	\$690
Array CGH prenatal including Karyotype Prenatal	\$690
Array CGH tissue - incl Karyotype skin or POC - 73287	\$690
AZF Deletion	\$150
CVS & amniocentesis monogenic work up & testing	\$1,500
Cystic fibrosis Screen (CF)	\$285
Endometrial Receptive Antibody (ERA)	\$1400
Fragile X	\$130 (Medicare rebate \$86 if family history)
Inferility panel (CF, AZF, Thrombophilia screen + other genes)	\$380
Karyotype	BULK BILLED
Karyotype prenatal samples (CVS or amniocentesis)	\$450 (\$335 Medicare rebate)
Karyotype skin or products of conception	\$450 (\$295 Medicare rebate)
Karyotype sperm FISH (Aneuploidy or Translocation)	\$280
Maternal cell contamination	\$200
Panorama NIPT Standard	\$435
Panorama NIPT + 22q11.2	\$510
Panorama NIPT + 5 microdeletions (inc 22q11.2)	\$635
Preconception panel (includes CF)	\$750 per person \$1,400 per couple
Spinal muscular atrophy SMN 1	\$115
UPD studies - trio screen	\$1,395
Virtus Genetic Screen (CF, SMA, Fragile X)	\$400
Further tests	
Fasting glucose	BULK BILLED
Fasting insulin	
HbA1c	
HTLV I / II	
Natural Killer (NK) Cells	\$295
Sperm antibodies (SAb IgG)	BULK BILLED
Thalassaemia screen	Estimated cost \$90.20
Tumour marker (CA125)	BULK BILLED

## Diagnostic Testing Costs

### Non Medicare card holders

Prices are correct from 14 August 2017 and are subject to change without notice

We seek to keep your costs to a minimum. As Tas IVF and Virtus Diagnostics, are part of one of the world’s leading medical collaborations we can offer a complete range of general pathology services as well as specialised fertility and genetic testing through our inhouse laboratories.

Listed are the diagnostics tests typically requested by your fertility specialist and available through our clinics and laboratories.

#### External providers

If you attend an external pathology provider there may be additional costs invoiced directly to you by that provider.

#### Estimated costs

A few tests do have to be sent to an external provider because of the highly specialised nature of the test. We have provided an estimate of what you should expect. **You will be invoiced directly from the external provider.**
